

## PRODUCT SPEC SHEET

# OPTEBULK 40X48 CONTAINER

The 40 x48 OpteBulk mirror image container is a collapsible bulk container comprised of a reusable sleeve, pallet and topcap. A sustainable alternative to single-use paper gaylords which offers transportation, packaging and warehouse cost savings.

- Lightweight container can be assembled and collapsed with single operator
- Effective collapsibility – Up to 115% more containers per trailer than rigid plastic knockdown containers
- Sleeves are fabricated from Tri-Clone, a tri-laminated PP extrusion with bi-directional strength
- Smooth pallet deck to protect your product from compression damage

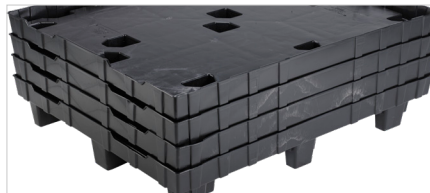

Mirror image pallet design allows the same pallet to be used as a pallet and/or top cap

Interlocking foot design provides secure container stacking

Optional access doors with Velcro latching

Pallets nest for efficient return trips

Tri-Clone vs. Paper: Rounded edge seal with smooth, cleanable surface

Powered by Menasha Corporation
