

PRODUCT SPEC SHEET

48x48 DRUM OP CIISF STACKABLE PALLET

ORBIS stackable drum plastic pallets are designed for handling and shipping of standard 55-gallon drums in warehousing, processing, and manufacturing environments.

- Ideal for stack loading, conveying systems, distribution and static storage
- Non-porous, smooth design makes these pallets easily cleanable
- Manufactured in 100% recyclable material
- Consistent weight for accurate transportation costs
- Legs are angled to create tapered slots for jack or forklift tines
- Optional fire retardant material available
- Optional FDA-approved material or fire-retardant materials are available
- Molded-in rings to secure 55-gallon drums during transportation
- Fork Truck Entry: 4-way
- Functional with Spill King basin
