PRODUCT SPEC SHEET

XPRESSBULK® MILK DELIVERY SYSTEM

The XpressBulk® Milk Delivery is a fully reusable, single touch, retail-ready merchandising system designed for retail deliveries.

- Secure dolly staking and tray nestability to maximize storage and transportation space
- Maximize performance with multiple product versions customized for Dura-Lite® and Mid-America 8396 bottles
- Secure, custom formed lip on dolly for each specific bottle
- Fastener driven design, simplifying dolly maintenance
- Narrow 24.9" width for retail maneuverability
- Material handling equipment accessible – Two-way fork lift and hand truck compatibility (21" fork tunnel)
- Automated system compatibility
- Total lock caster brake with added security for transit and display with color coded foot pedal
- Maintenance free caster with self-lubricating and corrosive resistant bearings with precision sealed raceways

XPP Dolly Specifications	Outside Dimensions (in)		Inside Dimensions (in)*		Height (in)	Product Clearance	Weight (lbs)	Load Capacity (lbs)	Caster Size	Caster Config. (qty-type)**	Wheel Material	53' Trailer TLQ
	L	W	L	W								
XPRESSBULK Milk Dolly – Dura-Lite	32.1	24.9	30.4	24.5	8.5	7.5	29.8	1,000	4 x2	2R / 1S / 1SB	Phenolic	750
XPRESSBULK Milk Dolly – Mid-America	32.1	24.9	30.4	24.5	8.5	7.5	29.4	1,000	4 x2	2R / 1S / 1SB	Phenolic	750

* Perimeter lip has radius that affects usable ID: DL - Radius 1.125, MA - Radius .500
** 2R = qty 2 rigid, 1S = qty 1 swivel, 1SB = qty 1 swivel with brake

XPP Bulk Tray Specifications		Outside Dimensions (in)		Height (in)	Weight (lbs)	Nest Ratio	Bottle Capacity (1-Gallon)	Color Stripe Indicator	53' Trailer TLQ
		L	W
