

PRODUCT SPEC SHEET

# POINT-OF-PURCHASE RETAIL DISPLAY PALLETS

ORBIS’ all-plastic display pallets accommodate a wide range of POP displays ad structures. These pallets easily create end-of-aisle displays and offer marketers an attractive display solution with efficient material handling. They offer a flat, smooth surface that allows easy set up in warehouse or re-packing facilities. Once pallets arrive at the retailer, they can be moved directly to the sales floor, reducing labor costs and storage space.

- Feature smooth, all plastic construction that reduces product damage – no exposed nails, rust, splinters or broken boards
- Available in a variety of footprints
- Offer consistent weight and size for accurate transportation costs
- Non-porous plastic construction enables easy floor cleaning and handling
- Enhances retail floor image
- Reduce packaging waste by eliminating wood pallet disposal
- Improve consumer safety with smooth, contoured designs
- Multiple footprints available to meet store objectives and boost sales
- Optional hot stamp or molded-in logo
- 100% recyclable at the end of its service life
