

## PRODUCT SPEC SHEET

# OPTEBULK 12X10 CONTAINER

The 12x10 OpteBulk Container is a collapsible bulk container comprised of a reusable sleeve, pallet and topcap. A sustainable alternative to single-use paper gaylords which offers transportation, packaging and warehouse cost savings.

- Lightweight container can be assembled and collapsed with single operator
- Effective collapsibility – up to 120% more containers per trailer than rigid plastic knockdown containers
- Clamshell design kits all components together for efficient storage
- Sleeves are fabricated from Tri-Clone, a tri-laminated PP extrusion with bi-directional strength
- Smooth, solid pallet deck to protect your product from compression damage

Sleeve collapses for efficient nesting for return trip

Secure stacking feature

Multi-piece sleeves for operator access available

Proprietary pallet latch automatically locks sleeve to pallet. Release is foot operated from standing position

**Tri-Clone vs. Paper:**  
Rounded edge seal with smooth, cleanable surface

Optional access doors with Velcro latching

Powered by Menasha Corporation
