

# PRODUCT SHEET

## NPL636 TRAY

The NPL636 is designed for the efficient flow of bread and baked goods throughout the supply chain, from the bakery to grocery stores, mass merchandisers, restaurants, food service / concession outlets, and convenience stores.

When full, the NPL636 stacks securely for easy transport and merchandising. When empty, they cross-stack and nest for back room and truck space savings.

The NPL636 can be integrated with automated systems and offer smooth surfaces and contoured corners to prevent product damage. Combine with plastic pallets and dollies for a full system to quickly move, store, ship, and merchandise all types of bakery items, from bakery to retail.

- 23.4" x 20.6" footprint
- Comfort grip open handles
- Exceptional merchandising efficiency
- Baskets cross-stack and nest efficiently for return trip
- Automation compatible features
- Asset tracking systems available
- Rail and groove design facilitates blind stacking
- Reinforced corners
- Available in FDA-approved materials
- Fully recyclable at the end of service life
