PRODUCT SPEC SHEET

GA6040-22 CONTAINER

The Stack-N-Nest System is an integrated system of stack and nest containers, pallets, top caps, and dollies. These reusable plastic totes stack in a column, creating vertically modular loads and level stack heights.

- 24 x 16 footprint
- Attached-lid design
- Stacks with the lid closed and nests when empty
- Solid or ventilated walls for maximum airflow, easy cleaning, and rapid cooling
- Smooth or textured bottom
- Contoured handles for easy and safe handling
- Identification areas located on sides, ends, and covers
- Available in FDA-approved and ESD-protective material
- Fully recyclable at the end of service life
