

PRODUCT SPEC SHEET

# 4048 AGRICULTURE (AG) CONTAINERS

The AG4048 containers are engineered to accommodate a wide range of product sizes, shapes, and weights. Their efficient design enables more parts to be handled, stored, and shipped using fewer containers and in fewer trips. Containers are fully recyclable at the end of life.

- High-density polyethylene
- Structural-foam ventilated sidewalls
- Single piece high pressure molded base with flow-through design
- High pressure snap instringer
- Consistent tare weight that improves inventory and shipping efficiency
- Collapse when empty for reduced return transportation costs and warehouse space savings
- Bins stack securely atop each other when full or collapsed
- Self-standing sidewall for safe, efficient assembly and collapse

Models	Outside Dimensions (in)			Inside Dimensions (in)		Product Clearance (in)	Collapsed Height (in)	Container Capacity (lbs)	Weight (lbs)	Internal Volume (ft <sup>3</sup> )	Return Ratio
	Length	Width	Height	Length	Width						
4048-32	48.0	40.0	32.0	45.0	37.0	25.7	13.5	1,500	118.0	25.5	2.32 : 1
